

Arborist Technical Rigging

May 10-11, 2018
Tempe, AZ

Would you like to gain a better understanding of **forces applied to rigging systems**? Would you like to see **actual load measurements** using load cells to capture peak reading in different parts of a rigging system?

Then this course is for you!

Location: Pera Club, 1 East Continental Drive, Tempe, AZ 85281

Date: May 10-11, 2018

Course Times: 8:00 am – 4:30 pm both days; lunch is not provided

Cost: \$450 early registration (before April 23, 2018); \$500 late registration (after April 23, 2018)

CEUs: International Society of Arboriculture (ISA) Certified Arborists, Utility Specialists, Municipal Specialists, and Tree Workers will be eligible to receive CEUs for the two-day course

Equipment Requirements: Participants are required to bring personal protection equipment and their regular climbing gear (harness and line).

Course Description: This course provides education and practice around making sound designs on planning and setting up complex rigging systems, including skills needed to remove large trees in confined locations or surrounded by obstacles with a low impact focus. Specifically, participants will learn the following skills:

- Safety and risk management
- Aerial work positioning
- Physics and dynamics
- Lines, slings and rope tools
- Knots, hitches, prussics and terminology
- Rigging equipment
- Compound rigging techniques and planning

Applicable Standards: This course meets the ANSI/ASSE Z490 Criteria for Accepted Practices in Safety, Health, and Environmental Training as well as ANSI Z133.

Age of Majority: Each participant must be over the age of majority in the state in which the course is being held
